Subject: FW: MedDRA coding
DSS:

Dear Jennifer,

See below, we need to have a subscription to MedDRA – Medical Dictionary for Regulatory Activities – in order to be able to share MedDRA coded data with CRO and to analyze the data. The license can be used for the entire RD&E/ PMUSA. Click the link for more information and how to subscribe.

FYI, the FDA is already using the MedDRA in their reporting system and the use of MedDRA is inevitable in clinical research since rule to mandate the use of MedDRA has been published in the Federal Register.

Please call me if you have any questions.

Best regards,
Jan

Hi Bettie,

Re: our MedDRA coded data: An issue has been raised by MedDRA who has specified that MedDRA coded data should not be sent to clients who do not have a license for MedDRA. Does Philip Morris USA have a current license for MedDRA on file?

Thanks a lot.
Best regards,
Eileen
